## EDUCATION

### Bulacan State University

2022 - 2026

Bachelor of Science in Information Technology

Latin Honors: Cum Laude

## SKILLS

**Languages:** HTML5, CSS3, JavaScript, TypeScript, C#, C++, Java, Python

**Frameworks:** React, Vite, Next.js, Tailwind CSS, Bootstrap, Django

**APIs & Databases:** REST, MSSQL, MySQL, PostgreSQL, SQLite, Firebase

**Artificial Intelligence:** LangChain, RAG, Generative AI, OpenAI, Gemini

**Tools:** Git, GitHub, Figma, Postman, Selenium, Visual Studio Code, Android Studio

## EXPERIENCE

### Web Development Intern

Dec 2025 - Mar 2026

8box Solutions Inc.

- Contributed to the development of 3 web applications, implementing frontend and backend APIs using React and Node.js.
- Built 15+ reusable React components, reducing repeated UI code and improving maintainability across multiple modules.
- Assisted in backend development by fixing 10+ API endpoints and supporting cPanel deployments for stable production.
- Tested 40+ API endpoints using Postman, identifying and reporting issues during development to ensure reliable APIs.

## PROJECTS

### SDPTSolutions Academy

2025

Next.js | Bootstrap | Firebase

- Designed and implemented 20+ RESTful API endpoints supporting course management, progress tracking, and payments.
- Tested APIs using Postman and REST Client, executing 50+ API test cases to validate functionality and error handling.
- Created 10+ reusable React components to improve UI consistency and speed up development of new pages and features.

### Custom Survey & Analytics Platform

2025

React.js | Tailwind CSS | Django | PostgreSQL

- Developed a drag-and-drop survey builder that simplified survey creation and reduced manual configuration effort.
- Designed 20+ modular React components and Django APIs, improving maintainability and enabling scalable architecture.
- Implemented dynamic charts and visualizations in the dashboard to improve data interpretation and user experience.

### Enrollment System

2023

Java | Microsoft SQL Server

- Developed a system for managing enrollment and records, generating reports, and reducing admin processing time.
- Enhanced enrollment processing, reducing processing time by 2× compared to traditional paper-based methods.
- Enabled data-driven decisions by implementing structured reporting and improving data management processes.

## CERTIFICATIONS

### Salesforce Supported Virtual Internship Program 2025 - Certificate of Completion

- Completed an 8-week program with hands-on training and a capstone project.
- Achieved Agentblazer Champion status with multiple Trailhead badges, completing 100% of the required modules.
